

My favourite friends

First, my story is about me and my favourite friends. We are four friends all the same age and we were neighbours. When we were young, we did pranks on people. But although, we were playing, we used to fight.

Moving on when we were six years old, we went to the same school. At the school we learnt many things and we shared the food and everything. Also, we were lucky because we were in the same class. We started to love each other because we had worked hard at school together.

My friend's mother is a teacher in our school. She was giving us private lessons at the home. She used to help us in our problems. When we were together, we used to do a lot of activities as we went to play football at the Sportsclub, and we went swimming together on the beach. We visited each other at the festivals. Also, we used to celebrate our birthdays.

After that, we went to Alexandria and visited the biggest library in the Egypt and went to beach.

We went to Giza and visited the Great pyramids and sphinx. We had a wonderful time on that visit but one of my friends went to the hospital because he had food poisoning. So, by the end, we started to be a good group and love each other.

Now I live in another country, but we still talk together and share everything that happens in our lives. We are studying hard and encourage each other. I have not met them for two years and I am going to visit them next summer. We also are going to visit all the amazing places in Egypt, and we hope to have a wonderful time together like before. In the future we are planning to open a business together and we will help a lot of poor people. This is a love story about friendships that I know I will never live again.
