

# LITTER WASTE

**Enejda Xhelili**

## ~The city of Bradford

Bradford is a little old place but also with an environment polluted by food waste that we people throw everywhere .This does not create a good impression on tourist and does not make us have a clean environment for visitors but also for us people who live here.

~The results if we recycle!

If we recycle all the waste for example metal, paper, cans, food waste and put them in right bins. We will benefit for a successful recycling process but also a healthy life a clean environment and protected through recycling.

What should we recycle?

~Food waste

~Paper

~Bottle

What should we use to throw away the waste?
