

# Recycling

The report is about recycling how many people recycle in Bradford college.

I asked ten people question male and female about recycling.

First question was what do you usually recycle four people plastic and 6 recycle they phone.

The second question was do you support recycling? and nine people support recycling.

The third question was how do you feel about recycling? ten people feel happy about it.

The fourth question was how often do you recycle?

Five people recycle weekly and five aren't sure. The fifth question was it's recycling good for the environment? Ten people think that recycling is good and important for the environment. The sixth question was when did you start recycling?

Two start last year and eight they have no idea when they started.
