

Recycling Report

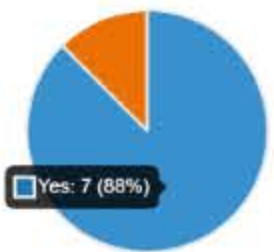

The report is about recycling. We did a survey about recycling. In this survey ESOL students from Bradford College participated. They were six people who scan their QR code and give their opinion. They were only six people the other didn't do this survey because they were not interested.

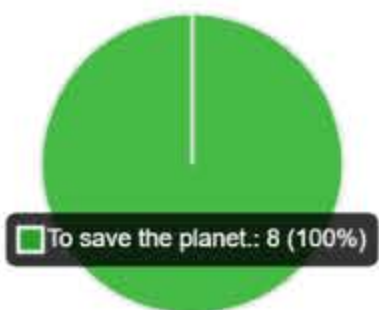

In the first question I asked what people know about recycling.. 7 people said they know everything and 1 person said they know nothing.

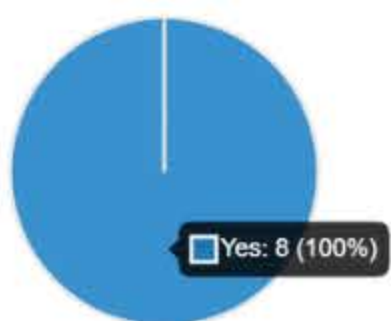

In question two I ask people how they feel about recycling. 8 people said they feel good

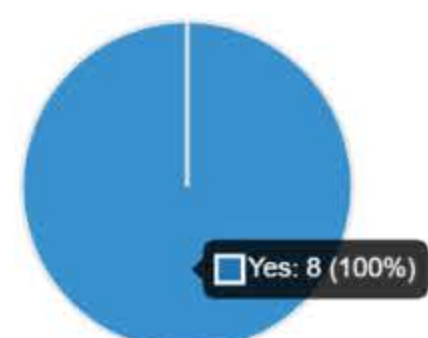

In third question I ask people. Do they recycle every day. 7 people said yes and one person said maybe.

In question 4 I ask people why is recycling important. 8 people said to save planet

In question 5 I ask every single person if they recycle the waste. 8 people said yes we recycle the waste.

In question 6 I ask people is recycling good for planet. 8 people said yes.
